

## JED LOUNGE

Classic, clean and contemporary, the Jed's simplicity of design belies its focused bearing and clever adaptability. Sitting upon a timber or steel plinth base Jed may at first seem angular, even severe. But that potential sharpness is circumvented with edges softened by gentle curves and the careful balance overall of aesthetic appeal and physical comfort. This provides a fresh settee with confident simplicity and style. Wide arms and the charcoal coated base are standard, both a timber base and narrow arms are options. Devised to suit any number of coverings, makes the Jed a truly versatile piece suiting both residential and commercial spaces.
